Reliable and Effective Cosmetics Testing Solutions to Excel in the Evolving Global Market

As the global cosmetics market surges forward, especially in burgeoning markets like China and Southeast Asia, the cosmetic industry is presented with immense growth opportunities. However, navigating the complex maze of diverse quality, safety, efficacy, and labeling requirements across various regions can pose a significant challenge.

Whether you're a cosmetic brand owner, manufacturer, or distributor, launching a new cosmetic product amidst the rapidly evolving legislative landscape and ever-changing marketplace dynamics can be a daunting task.

In this complex environment, we make your success our mission. We provide comprehensive cosmetic testing and regulatory compliance services, committed to helping you navigate regulatory requirements and ensuring a successful product launch and sustained market compliance.

What makes us unique?

PROFESSIONAL TESTING SERVICE SUPPORT

Physical-Chemical testing: analysis of prohibited/restricted substances, active substances, stability and compatibility, etc.; assessment of cosmetic ingredients for compliance with regulatory limits for prohibited/restricted substances

Microbiological testing: detection of potential harmful microbiological contaminants in cosmetics and evaluation of the effectiveness of preservatives

Efficacy testing: provision of evidence to support product efficacy claims

SENIOR REGULATION EXPERTS AND TOXICOLOGISTS TEAM

Our team of senior regulation experts and toxicologists includes Diplomates of the American Board of Toxicology (DABT), Diplomates of the Chinese Society of Toxicology (DCST), and professionals who have successfully completed accredited EU cosmetic safety assessment training at Vrije Universiteit Brussel. With their wealth of experience in cosmetic safety assessment and compliance consultation, you can trust that your products are in good hands.

ONE-STOP GLOBAL COSMETIC REGULATORY COMPLIANCE

Our regulatory compliance services cover China, the EU, UK, US, Canada, ASEAN, Australia, and more, so you can rest assured that your products will meet regulatory requirements wherever you do business.

FULL CONNECTION WITH PROFESSIONALS AND ASSOCIATIONS

We keep up-to-date with the latest regulatory updates and global communities, ensuring that your products remain compliant and competitive in the ever-changing global market.

TAILOR-MADE SERVICE DESIGN

We provide customized design consulting, alerts, and training to meet your specific needs.
