

# Comprehensive EMC

## Do Not Disturb and Do Not Get Disturbed

Ever since the compliance with the EMC Directive became mandatory worldwide, in the year 1993, TÜV Rheinland has been striving to expand its range of services and offer increased flexibility to customers, in terms of testing, certification and design support. Combined with our service for EMC directive conformity evaluation, testing according to FCC/IC and AS/NZS standards and certification service, we provide further enhanced one-stop service to suit your needs.

**Efficient EMC Solution**

As a 'Notified Body' and international service provider, we have been providing professional services for conformity assessment for CE marking. We offer evaluation services at our laboratories as well as on-site. Our strength is our Network. We provide testing services for International markets including US (FCC), Canada, Australia and New Zealand markets. We offer you an efficient EMC solution.

- Design Support Our facilities can be used for design analysis
- Laboratories Testing at 10m/3m Anechoic / shielded chambers
- On-site Testing Testing at customer site under special conditions
- Competent Body For on-site testing or in case of non-harmonized standards
- EMC Mark Voluntary third party mark conforming reliability
- One-Stop Safety and life time simulation testing are available together

**Competence for your success**

Within the framework of EMC legislation, we are accredited as a Notified Body by the regulatory authorities for Electricity, Gas, Telecommunications, Post and Railway in Germany. We are listed by the FCC (Federal Communications Commission) in U.S.

In extensively equipped testing laboratories, our services can benefit manufacturers in the following sectors:

- Household and leisure products
- Industrial products
- Information technology equipment
- Medical products
- Automotive components and accessories
- Wireless products

Numerous measurements can also be conducted at short notice
