

ISO/IEC 27701:2019

Privacy Information Management System (PIMS) Standard

ISO/IEC 27701:2019 is a globally recognized standard that helps organizations demonstrate compliance with requirements stipulated by privacy laws and protect personal data. It provides actionable guidance for conforming to various regulations, including the EU GDPR, and ensures enhanced data protection.

A rapid increase in concerns over privacy relating to the use of social media, AI, and IoT devices, and the global proliferation of privacy laws means organizations are now facing pressure from customers, end-users, investors, and regulators about how they manage the personal identifiable information (PII), or personal data, they collect when conducting their business.

EXTENSION OF ISO/IEC 27001

As an extension of ISO/IEC 27001, ISO/IEC 27701:2019 focuses specifically on protecting personal data and offers comprehensive guidance for implementation.

APPLICABLE TO VARIOUS ENTITIES

ISO/IEC 27701:2019 is applicable to all organizations which have employees & process data (public and private companies, government entities, and not-for-profits).

Global Data Protection Management System for More Security

Data protection is becoming increasingly more important, and ISO/IEC 27701:2019 provides an advanced management system for enhanced data privacy. It helps organizations meet privacy law requirements, and safeguard.

Benefits of ISO/IEC 27701:2019 Certification

COMPLIANCE WITH THE REQUIREMENTS OF DATA PROTECTION LAWS

ISO/IEC 27701:2019 can help demonstrate compliance with [the requirements stipulated by](#) data protection laws and clarify the responsibilities of roles within an organization.

WORLD-CLASS DATA GOVERNANCE

ISO/IEC 27701:2019 sets world-class standards for global data governance, ensuring transparent and effective management of personal data.

INCREASED STAKEHOLDER TRUST

Certification brings increased stakeholder trust and provides a competitive edge through demonstrating strong IT governance.

IMPROVED TRANSPARENCY

By implementing ISO/IEC 27701:2019, organizations achieve improved transparency through detailed security and privacy controls.

Increased Trust Among Customers and Business Partners

ISO/IEC 27701:2019 certification enhances trust and transparency in data management, reducing the risk of data breaches. It can support compliance with [the requirements stipulated](#) by data protection laws and integrates with the ISO/IEC 27001 information security standard.

ISO/IEC 27701:2019 CERTIFICATION PROCESS

01

INFORMATIONAL INTERVIEW

Gain an understanding of the ISO/IEC 27701:2019 certification process and requirements.

02

READINESS ASSESSMENT

Assess your organization's readiness to meet the certification requirements.

03

CERTIFICATION AUDIT

Undergo a comprehensive audit of your Privacy Information Management System (PIMS) to evaluate compliance.

04

CERTIFICATE ISSUANCE

Receive the ISO/IEC 27701:2019 certification upon successful completion of the audit.

05

SURVEILLANCE AUDITS

Periodic audits to ensure ongoing compliance with the standard.

06

RECERTIFICATION

Renew the ISO/IEC 27701:2019 certification, to maintain compliance and demonstrate commitment to privacy protection.

Why Choose TÜV Rheinland?

EXPERTISE IN INFORMATION SECURITY CERTIFICATION

TÜV Rheinland has extensive experience in information security certification, ensuring reliable and trusted services.

COMPREHENSIVE SUPPORT

TÜV Rheinland provides comprehensive support throughout the ISO/IEC 27701:2019 certification journey, offering guidance and assistance at every stage.

DATA PROTECTION COMPLIANCE

TÜV Rheinland assists organizations in achieving compliance with data protection requirements, including the adoption of Privacy by Design principles, and best practice for review of security incidents.

TRUSTED PARTNER

By choosing TÜV Rheinland, you partner with a trusted organization that prioritizes information security and privacy.

Contact TÜV Rheinland for ISO/IEC 27701:2019 Certification

To learn more about certifying your privacy information management system according to ISO/IEC 27701:2019, contact a TÜV Rheinland expert. They provide personalized guidance and support to ensure successful certification.

ONLINE CONTACT

Certipedia is the online certification database that makes tested quality visible. With this test mark, you create trust among customers and business partners. Learn more!

About TÜV Rheinland

Founded over 150 years ago, TÜV Rheinland is a global leader in independent inspection, testing and certification services, ensuring quality and safety for people, the environment, and technology in nearly all aspects of life. TÜV Rheinland has been a member of the United Nations Global Compact for greater sustainability and against corruption since 2006.
